The attestations and other documents of soldiers of the Territorial Force who proceed on service to a Colonial Station or Egypt will remain in the custody of the Officer in charge of the Territorial Force Record Office concerned.</p>	<p><b>A.O. 371.</b> <b>1914.</b></p>

2. The payment of Separation Allowance to the families will continue to be made by the County Association. The Association will also pay allotments in accordance with Army Order I. of 31st August, 1914, and the Supplementary Instructions referred to in paragraph 3 of Army Order II. of that date.

3. Commanding Officers will, if possible before embarkation, render Allotment returns on Army Form O 1796 to the County Associations in respect of men who wish to make Allotments in excess of the minimum rate, and will secure that the necessary recovery at the rates shown is made in the Pay List month by month.

When men are transferred to a unit administered by the Territorial Force Association of a County other than that for which they were enlisted, the family allowance will continue to be paid by the Association of the latter county.

4. Officers will be paid by the Army Agent paying the Regular officers of the same regiment or corps unless they elect to continue to draw their pay from the adjutant.

5. Indents for cash for the period of the voyage should be put forward in the usual manner to the cashier of the Command in which the unit is quartered.

Pay Lists and Pay and Mess Books will continue to be compiled in the unit, but from the 1st day of the account period in which the unit embarks the accounts

**A.O. 371** will be rendered to the Paymaster at the Colonial Station.  
**1914**

*continued.* In cases where a combined Pay List for August and September is being prepared, and the unit embarks before rendering such account to the Home Paymaster, the prior training Pay List and recruit rolls should be rendered with the account to the Paymaster at the Colonial Station.

6. The following will not apply to units proceeding to Colonial Stations :—

Territorial Force Regulations—

Paragraph 163A.

Appendix XXVI., paragraph 17.

paragraph 32, lines 5—9.

Mobilization Regulations—

Paragraphs 324, 325.

Paragraph 27 of the "Instructions relative to issue of separation allowance to the families of soldiers of the Territorial Force when mobilized," issued with Special Army Order IV. of 5th August, 1914.

7. General officers commanding-in-chief will make the necessary arrangements for all detachments left behind, either by sending them to the peace headquarters of their unit to form the nuclei of reserve units, or by attaching them to other formations in the command. A complete unit will be attached to another formation in the command.

If it should be necessary for military convenience for any men left behind to live and be messed at their homes, they may draw the authorized rates of ration and separation allowances while they remain embodied.

For definition of "unit," see page 8, Territorial Force Regulations.

**A.O. 372.** 50. County Associations have been asked to under-

46
Gen. No.
6049

# Army Orders.—October, 1914.

20th and 30th August, 1914, promulgated in Army A.O. 372  
Orders of the 16th, 20th and 31st August, 1914. 1914

50A. The first issue will be made at the minimum *continued.*  
rate laid down in Article 986, Pay Warrant, for the  
period from the 7th September, 1914, to the end of the  
month, to the families of all men entitled to receive  
Separation Allowance. Associations will render to  
officers commanding units a return on Army Form  
O 1795 showing the amounts issued. The corresponding  
deductions will be made by units from the men's pay.

50B. Every soldier at present serving should be  
asked whether upon future occasions (*i.e.*, from 1st  
October, 1914) he wishes to make an allotment in excess  
of the minimum rate, or to allot to another relative  
under paragraph 8 Army Council's instructions to  
Article 986 Pay Warrant; and similar inquiry should  
be made of all soldiers enlisting in future.

A return of men who wish to make such allotments  
will be rendered to the Territorial Force Association by  
the officer commanding the unit on Army Form O 1796,  
and a certified roll of such cases will be retained as a  
voucher to the Pay List to justify the new rate of allot-  
ment.

50c. The amount of the allotment will, until the  
occurrence of any casualty, be debited against the  
soldier's account in the Pay List under the heading of  
"Allotments," one of the debit columns being adapted  
for the purpose. Territorial Force Associations will  
report to officers commanding any variation in the  
amounts issued by them which have not been already  
reported to them by those officers.

Company commanders will ensure that the rates are  
noted in the pay and mess books so that cash payments  
may be regulated accordingly.

50d. Compulsory stoppages which have been  
authorized by the general officer commanding under  
Section 145 of the Army Act for the maintenance of a  
soldier's wife or family or illegitimate child will be  
similarly dealt with.

Such stoppages are not recoverable in respect of days  
for which the soldier's pay has been forfeited, and  
County Associations will be informed of such forfeiture  
with a view to recovery from subsequent issues.

50E. The above procedure will continue in the case  
of *units* of the Territorial Force proceeding to stations  
abroad; but the allotments of *individuals* transferred  
to service abroad will be paid by the regimental pay-  
master of the unit to which they are transferred.

### A.O. 373. III.—Clothing of Regular and Special Reserve 1914. Units serving in the United Kingdom and the Colonies after Mobilization.

#### *Regular Units.*

1. It has been decided that the clothing money allowance system will be suspended in Regular units from the date of this Order (at stations abroad from date of its receipt), and that a system of free issues of clothing and necessaries will be instituted in its place. The issues, both to recruits and to serving soldiers, will be limited to the scale laid down in Table I., Part III., Clothing Regulations.

54
Gen. No.
1522

2. Monthly indents for the clothing and necessaries required for issue in the unit will be made upon the Clothing Dépôt. Great care will be taken by officers commanding to limit demands to the minimum stock required for the unit's needs, it being of the greatest importance that unnecessary stocks of clothing should not be held by units and that the working margin should be the smallest possible. The indents will be closely scrutinized at the Clothing Dépôts.

3. An account of the receipt and issue of clothing and necessaries will be kept in Army Book 284 (or 285); but, in order to meet present conditions of service, simplified forms of vouching are authorized (*see* paragraphs 6 and 7).

4. All clothing and necessaries received (including any local purchases) will be taken on charge in the clothing ledger, and will be supported by the delivery voucher in the case of receipts from a clothing dépôt or from other units and by a copy of the bill in the case of local purchases. (Except in the case of regiments of Household Cavalry and battalions of Foot Guards that are still wearing full dress clothing, public clothing in possession of a soldier transferred from one unit to another will not be taken on charge—*see* paragraph 9).

5. Issues to individual soldiers will be carefully watched in the units, and officers commanding will take adequate measures to ensure that these issues are in every case justifiable.

6. Issues of all clothing (including public clothing) and necessaries will be made on Army Form H 1178 (or 1179), which will be prepared weekly or as may be

convenient. Issues will be distinguished in these Army A.O. 373  
Forms under three headings :—  
1914

*continued.*

I.—Issues to recruits.

II.—Ordinary replacement issues.

III.—Issues to replace clothing and necessaries lost, made away with, or rendered unserviceable through neglect or carelessness (*see* paragraph 13).

7. The individual names or receipts of the recipients need not be given in Army Form H 1178 (or 1179), but the officer commanding the unit will certify that the issues shown in the vouchers have been duly made and are absolutely necessary.

The unserviceable articles which are replaced by the ordinary replacement issue (II. above) will be taken on charge in the clothing ledger at Section VI., and finally written off when sold or otherwise disposed of.

Marking and fitting charges will be made in Army Form H 1178 (or 1179).

8. Issues of clothing in replacement will not be made unless the articles which are to be replaced have been condemned as unserviceable by a board of survey. In exceptional circumstances, where the assembly of a board of survey is impracticable, a certificate signed by the officer actually in command will be accepted instead.

9. Upon receipt of this Army Order all current clothing ledgers will be closed and the balances transferred to a new Army Book 284 (or 285); but except in the case of regiments of Household Cavalry and battalions of Foot Guards that are still wearing full dress clothing, *public clothing already in wear will not be so transferred*, and any subsequently issued during the war period will be written off in the same manner as personal clothing and necessaries. Section III. of the ledger will only record the serviceable part-worn public clothing in store; and Army Forms B 292 and 293 will not be rendered by squadrons, companies or detachments, nor will Army Book 340 be kept.

In Household Cavalry regiments and battalions of Foot Guards that still wear full dress clothing the peace method of accounting for public clothing in wear and in store will be continued.

## Army Orders.—October, 1914.

**A.O. 373**

### *Special Reserve Units.*

**1914**

*continued.*

10. Clothing and necessities will be issued free to Special Reservists on the scale laid down in Table I., Part III., Clothing Regulations.

11. The peace clothing ledgers of Special Reserve units will be closed on receipt of this Army Order and the balances will be transferred to Army Book 284 (or 285), *except that no articles in possession of the soldiers will be so transferred.*

Army Form H 1178 (or 1179) will be used by Special Reserve units instead of Army Forms H 1141 and 1142 and P 1919.

Application should be made to the War Office for the necessary Army Books and Army Forms, if not in possession.

12. Special Reserve units will follow the simplified system of accounting for clothing as prescribed in this Army Order for Regular units.

### *General.*

13. The value of clothing and necessities lost, made away with, or rendered unserviceable through neglect or carelessness, will be assessed regimentally and charged against the soldier, in accordance with paragraph 29, Clothing Regulations, Part III.

14. Paragraph 9, Clothing Regulations, Part III., is hereby cancelled.

**A.O. 374.**

**1914.**

**IV.—Establishments.**—In view of the present emergency, the verification of establishments of warrant officers, non-commissioned officers, &c., for the year 1914, will be dispensed with. Army Order 219 of 1914 is *cancelled*.

## Army Orders.—October, 1914.

**A.O. 377** 31st August, 1914, the following additional paragraph  
**1914** will be inserted :—

*continued.* 3A. In cases where the Army Council consider it advisable, separation allowance will be issued to the recipients in advance at shorter intervals than monthly. When such payments are made, the issue by the County Association will be made monthly in advance to the Soldiers' and Sailors' Families Association, or other approved channel for administering relief, as indicated in circular letter addressed to Associations on the 21st August, 1914, No. 46/General No./6021.

(ii.) It has been decided that where a Territorial Force unit proceeds on service abroad separation allowance will continue to be issued by the County Association concerned.

Paragraphs 22 to 27 of the above instructions are cancelled and the following will be substituted :—

### *Imperial Service Section.*

22. Units of the Territorial Force proceeding abroad will continue to be dealt with under home conditions. Individuals of the Imperial Service Section will be dealt with under those conditions until they are called upon to serve abroad with a regular or special reserve unit. They will then be dealt with as regular soldiers.

The officer in charge of the Territorial Force Record Office will inform the County Association of the fact and the Association will then cease to pay separation allowance to the families.

23. The County Association will at once strike these men off their payment in Army Form N 1536A. They will then record on each Army Form D 418 relating to the men the date up to which separation allowance has been issued, and will forward the forms to the regimental paymaster paying the unit to which the men are attached. A paymaster will not begin the issue of separation allowance until he has received Army Form D 418 from the County Association concerned.

24. Men of the special reserve, category (b), will be dealt with as regular soldiers, and will at no time come under County Associations for the issue of separation allowance.

**\*VIII.—National Insurance Act, 1911.—Difficulties A.O. 378.**  
**1914.**

have arisen through failure to comply fully with the instructions contained in Special Army Order, dated 27th June, 1912, and later Army Orders, regarding the insurance of soldiers. In order to prevent their recurrence and remove misunderstanding the following instructions are issued for the guidance of all concerned, viz. :—

(i) *Recruits.*—On attestation recruits should be instructed (a) to write “enlisted” across their civil cards and return them to their societies or, if they are not members of approved societies, to the Insurance Commissioners as in the case of completed cards; and (b) to hand in their unemployment books at the nearest Labour Exchange or other office of the Unemployment Fund. (Posters to this effect have been issued by the National Insurance Commissioners to recruiting centres to be displayed for the information of intending recruits.)

(ii) *Reservists and Territorial Force.*—During the period of mobilization or embodiment the rules for the regular army apply, and army cards must be issued and stamped at the army rate (*see* instructions on the card) by the officer commanding the company, &c. (except in the case of men sent abroad to join the Expeditionary Force whose cards are dealt with by the paymaster). Soldiers of the Territorial Force who at the time of embodiment were not insurable under the Act have the option of remaining uninsured provided they elect to be exempted before 31st October, 1914, or, if enlisted or embodied after 1st October, 1914, within one month from the date of enlistment or embodiment. They will signify their desire to remain exempt by writing across their army card† “Not previously insurable. Exemption claimed,” signing the card and returning it to the officer commanding the company, &c. The officer commanding will note

\* As amended by Army Order XXXIV. of 28th September, 1914 (Army Order 404 of 1914).

Army  
Order  
XXXIV.  
of 28th  
September,  
1914.

† The words “Not insured. Do not wish to be insured” should be written on the cards of all persons claiming exemption in future, instead of the words “Not previously insurable. Exemption claimed” directed at (ii) above.

## Army Orders.—October, 1914.

**A.O. 378** the exemptions in the Pay List and Pay and Mess Book  
**1914** and forward such cards, in bulk, to the National Health  
*continued.* Insurance Commission (England), London, S.W., for  
retention. If exemption is not claimed insurance  
becomes compulsory.

Under no circumstances may stamps for contributions  
at the army rate be affixed to civil cards.

(iii) *Army cards.* — (a) The supply of cards is  
obtainable on indent in the same manner as supplies  
of Army Books and Forms. Indents should be  
addressed to the Secretary, War Office, London, S.W.

(b) The attention of officers commanding companies,  
&c., is directed to Army Order IV., dated 26th August,  
1914. They should see that the name of the approved  
society (or, if the man is in no society, the words  
“Navy and Army Fund”), the name of the branch (if  
any) and the number in the society, are at once filled  
in on the front page of the card, and the name of the  
man, &c., inserted at the top of the second page.

(c) Cards should not be stamped week by week, but  
at the end of the insurance period, or on transfer or  
discharge. In the case of transfer the card should be  
stamped to the date of transfer and forwarded to the  
officer commanding the company, &c., to which the  
soldier is transferred, except in the case of men sent  
abroad to join the Expeditionary Force when the card  
should be forwarded to the paymaster.

(d) If in the case of transfer no card is received,  
the officer commanding the company, &c., to which  
the soldier is transferred will open a new card at  
the end of the insurance period (unless the Army  
Form O 1812 transferring the man shows that the  
soldier is exempt from insurance) and stamp it for the  
whole period of the card or from the date of enlistment  
if after the beginning of the period.

(e) Cards when stamped to the end of the insurance  
period should be handed to the men to sign and dispose  
of; and new cards should be handed to them at the same  
time to insert the name of approved society, &c.

(iv) *Stamps.*—Insurance stamps other than those  
of the value of 3s. 3d. and 6s. 6d. are procurable at  
any post office; stamps of the values mentioned will  
be obtained by indent from the cashier.

(v.) *Maternity benefit.*—The instructions published  
in Army Order 94 of 1914, regarding members of the  
Navy and Army Fund apply only to regular soldiers

and their wives. Claims in respect of soldiers re- A.O. 378

torial Force who are not members of approved *continued.*  
societies should be addressed to—

The Secretary,  
National Health Insurance Commission,  
29, Queen Anne's Gate,  
London, S.W.

(vi) *Paymasters.*—Cards of soldiers with the Expeditionary Force, which have been received in pay offices without particulars of approved societies, &c., and cannot therefore be dealt with as directed in paragraph 22 of the Special Army Order, dated 27th June, 1912, will be stamped at the end of the insurance period and new cards opened in the ordinary way. If in any case no card is received the paymaster, unless the Pay List or Pay and Mess Book shows that the man is exempt from insurance, will open a new card and stamp it for the whole period of the card, or from the date of enlistment or embodiment if after the beginning of the period. The cards will ultimately be disposed of as follows :—

(a) *Deceased soldiers.*—The cards should be marked “deceased, | | 19,” and forwarded to—

The Secretary,  
National Health Insurance Commission,  
29, Queen Anne's Gate,  
London, S.W.,

when the non-effective account (Army Form O 1815) is forwarded to the War Office.

(b) *Discharged soldiers.*—The cards should be forwarded with Army Form O 1809 to the commanding officer who will pass them to the men for disposal.

**A.O. 383** **1914.** *continued.* **tinue** to be issued unless and until it shall be proved before the court of inquiry referred to in Section 136, Field Service Regulations, Part II, that such soldier was taken prisoner through neglect or misconduct on his own part. The decision on the report of the court of inquiry will be communicated without delay to the officer i/c records, who will inform the paymaster paying the soldier's unit.

*Separation allowance* will continue to be issued in all cases on the same conditions as previously, irrespective of the opinion of the court of inquiry, until the soldier is discharged from the army.

**2. Soldiers reported missing.**—Pay, allotments and separation allowance will be dealt with as laid down above for prisoners of war, until the opinion of the court of inquiry is received by the officer i/c records as laid down in Section 136, Field Service Regulations, Part II. The officer i/c records will at once report the opinion to the paymaster paying the soldiers' unit.

The opinion of the court as to the circumstances of the casualty will guide the paymaster in dealing with the soldier's pay and separation allowance.

Regulated allotments of pay and separation allowance issued to the family or to a relative of a soldier found by the court of inquiry to be dead will not be recoverable, but any pensions granted to his widow or children will commence from a date subsequent to that to which the allotments and separation allowance have been paid.

The procedure laid down in Section 136, Field Service Regulations, Part II, for soldiers who are prisoners of war or missing, will be carried out by all concerned with the utmost promptitude after the receipt of the opinion of the court.

4. General officers commanding-in-chief will make the necessary arrangements for all detachments left behind by transferring them to the corresponding home service unit, if one exists, otherwise to the dépôt, temporarily, pending the issue of orders as to their disposal.

If it should be necessary for military convenience for any men left behind to live and be messed at their homes, they may draw the authorized rates of ration and separation allowances while they remain embodied.

5. Detailed instructions as to the method of accounting for cash issued in the field will be found in Chapter XV., of the Field Service Regulations, Part II., issued as a supplement in 1914, in substitution for the original Chapter XV., in the 1909 edition (reprinted 1913).

6. Each book, before issue to the man, will be completed as regards pages 2 and 3—Name, rate of pay, deduction for allotments, &c.

7. Any change in the rate of a soldier's voluntary allotment, which he may wish to make when the unit is under orders to proceed abroad, will be notified to the County Association concerned by the officer commanding, on Army Form O 1796, and the entries in the soldier's pay book will be amended accordingly.

8. The officer commanding will be responsible for securing that, before embarkation, the current pay lists of the unit, made up to the day preceding embarkation, are forwarded with the pay and mess books and vouchers and a nominal roll of the men actually proceeding with the unit to the paymaster at the headquarters of the district in which the peace headquarters of the unit are situated.

If it is not possible to close the pay lists completely, the paymaster will be so informed, and all available

vouchers, bills, &c., to enable him to close them, will be sent to him. Any unpaid company bills will also be sent to him for adjustment.

10. Officers will be paid by the Army agent paying the regular officers of the same regiment or corps unless they elect to draw their pay locally from the Paymaster i/c Command Services of the Expeditionary Force. The names of the agents appointed for the corps that are not affiliated to regular regiments are shown in the Appendix to this Army Order.

11. Any public cash in the hands of the adjutant or of the company officers on the day of embarkation that is not returned to a cashier at home will be credited in the first monthly imprest account rendered after embarkation through the adjutant-general at the base to the paymaster in charge of the clearing house.

12. The paymaster at home will, when necessary, complete and close the pay lists of the unit and will open an active service ledger as for regulars.

13. The payment of separation allowance to the families will continue to be made by the County Association concerned. The Association will also issue allotments of pay in accordance with Army Order I. of 31st August, 1914 (Army Order 342 of 1914), and the Supplementary Instructions referred to in paragraph 3 of Army Order II. of that date (Army Order 343 of 1914), and Army Order II. of 2nd September, 1914.

Lectures in addition.

On the completion of recruit training the collective training of the company will commence. The company will be put through a 5 weeks' course of company training under its own officers and non-commissioned officers, the course to be similar to that at present carried out. Specialists, such as machine gunners and signallers, will not perform company training.

Battalion and brigade training will take place after company training, and the division should be brought together for a week at the end of the time. Owing to the shortness of the days during the latter months of the course it will not be possible to carry out as many hours' training daily as at the commencement of the course.

Railways  
3950

**XXV.—Railway arrangements for travelling and transport in Great Britain whilst the railways of Great Britain are under Government control—** **A.O. 395.**  
**Summary.—**1. A list of railways taken over was forwarded to general officers commanding with War Office circular letter, 14/Railways/3951, dated 27th August, 1914.

2. The arrangement come to with English and Scottish Railway companies regarding the use of warrants, and other kindred matters, for the period subsequent to midnight, 4th August, 1914, is as follows :—

- (a) Warrants may be used, as in sub-paragraph (d) below, for the conveyance of any troops, including those of the Territorial Force, when proceeding on military duty, and in the case of persons other than the above (*e.g.*, prisoners of war &c.), when the journeys arise directly out of the necessities of army administration.
- (b) No payments will be made by army paymasters on warrants, &c., rendered by railway companies for conveyance of (i) any persons travelling under (a) above; (ii) horses, baggage, equipment and general stores when consigned as military traffic: payment will, however, be made as usual for any services rendered prior to 5th August, 1914.
- (c) Army warrants and carriage vouchers will continue to be used in all cases as a written authority to the companies for all authorized movements. They will be rendered by the railway companies in the ordinary way to the War Office and to paymasters for examination though not for payment.
- (d) The forms to be used are Army Books 205 (officers), 206 (other ranks), 391 (remounts), Army Forms P 1904 and G 980 (baggage and stores), and G 996 (explosives).
- (e) The use of County Association warrants should cease.
- (f) In no case should a railway warrant be issued for any service for which the individual concerned should himself pay, except the payment vouchers specified in paragraph 4 below.

## Army Orders.—October, 1914.

**A.O. 395** 3. The arrangement for non-payment in sub-para-  
**1914** graph (b) above will not apply to the following, which  
*continued.* should be paid for as hitherto :—

- (i) Through charges for military traffic between Great Britain and Ireland.
- (ii) Traffic consigned by contractors to the War Department or to military depôts, or *vice versa*, whether consigned carriage paid or to pay.
- (iii) Bills (including rail charges) rendered by carriers.

4. Special travelling facilities have been arranged for officers and men when passing between their war stations and their homes on short leave. Officers and men of His Majesty's Forces (including Territorials and National Reservists) and of ambulance corps engaged with the forces, when permitted by their commanding officer to proceed on leave, are allowed to travel by rail in Great Britain at the single fare for the double journey, on surrender of a special voucher. A supply of such vouchers, Army Forms O 1799 (officers) and O 1800 (men), is being sent to general officers commanding commands and training centres, and fortress commanders in Great Britain, headquarters of mounted divisions and mounted brigades, and divisions of the Territorial Force, who will issue them to all units concerned. The officer of the unit to whom the vouchers are issued will be careful to keep them under lock and key, and he will be responsible that they are only used for the purpose for which the concession has been granted. (Further instructions will shortly be issued regarding similar journeys in Ireland.)

5. Army Order III. of 16th August (Army Order 313 of 1914) is hereby *cancelled*.

**A.O. 398. XXVIII.—Gratuities to National Reservists who**  
**1914. enlisted into the Regular Army, Special Reserve**  
**or Territorial Force after mobilization but before**  
**being called up by proper authority.**

9  
 Reserve  
 1373

1. In view of representations which have been made to the effect that many National Reservists were unaware that it was not intended that they should present themselves for enlistment until they had received the necessary instructions through their County Association (under paragraph 18 of the Regulations for the National Reserve), it has been decided to extend the issue of gratuities to those men who presented themselves for enlistment without waiting to be called up.

2. Subject therefore to paragraph 3 below, the issue of the gratuities under paragraph 9 of National Reserve Regulations is sanctioned for all men registered in Classes I. and II. of the National Reserve before the 11th August, 1914, who have *since mobilization* enlisted into the Regular Army, Special Reserve, or Territorial Force before being called up by proper authority.

3. The following decisions will, however, remain in force :—

- |             |  |
|-------------|--|
| ...<br>1259 | (a.) Class I. reservists who may have enlisted into Territorial Force units are not entitled to any gratuity in virtue of such enlistment. |
| ...<br>1335 | (b.) Class II. Reservists enlisted into foreign service units of the Territorial Force are entitled to a gratuity of 5% only.              |

4. Every National Reservist who has not yet received the gratuity and who is now entitled to it under the provisions of the foregoing paragraphs should apply, through the officer commanding his unit, to the Secretary of the Territorial Force Association by whom he was registered, for a certificate that he was registered in Class I. or II. prior to 11th August, 1914. The reservist will then pass the certificate to his company officer, who will pay him the amount to which he is entitled. The charge in the accounts will be vouched by the certificate and proof of payment.

5. In cases in which County Associations have already received applications from reservists who are entitled to the gratuity under the terms of this order, the certificates should be despatched at once to the commanding officers concerned so that no delay in payment may ensue.

6. Secretaries of Territorial Force Associations will A.O. 398  
take care that only one certificate is issued for any one 1914  
man and that in no circumstances is a certificate to be *continued.*  
issued for a man who has already received a certificate  
under the regulations previously in force.

*Published on the 21st September, 1914.*

9 **XXIX.—Territorial Force—Formation of Home** A.O. 399.  
Gen. No. **Service Units.**—1. County Associations are authorized 1914.  
4223 to form a Home Service unit for each unit of the  
Territorial Force which has been accepted for Imperial  
Service.

2. The Home Service unit will—

- (a) Take the place, when called upon, of the Imperial Service unit, if and when, the latter is ordered abroad.
- (b) Act as a feeder to replace wastage in the Imperial Service unit.

3. The Home Service unit will be composed of—

- (a) All men from the corresponding Imperial Service unit referred to in paragraph 1 who cannot go abroad.
- (b) Recruits enlisted both for Imperial and Home Service.

4. Enlistments will be carried out in the ordinary way on Army Form E 501. Army Form E 624 will be completed in the case of each man volunteering for Imperial Service. Every man enlisted, whether for Home or Imperial Service, will be allowed to claim his discharge at the end of the war without being required to give the notice which may have been otherwise prescribed under the authority of Section IX. (3) of the Territorial and Reserve Forces Act, 1907. Any fine prescribed for payment in the case of premature discharge under the provisions of that subsection will be waived.

5. The establishment of a Home Service unit as well as that of the corresponding Imperial Service unit will be that laid down in War Establishments, Part II., for an ordinary Territorial Force unit of the same arm.

## Army Orders.—October, 1914.

**A.O. 399** 6. The following Home Service units will, however, **1914** for the present only recruit up to a strength equivalent *continued.* to 50 per cent. of their respective establishments :—

Mountain Artillery brigade.  
 Royal Garrison Artillery company.  
 Wireless section } Army troops, signal companies,  
 Cable section } Royal Engineers.  
 Air-line section }  
 Electric-light company, Royal Engineers.

In the case of electric-light companies, the full establishment of officers may be appointed.

7. The title of a Home Service unit will be the same as that of the corresponding Imperial Service unit with the addition of the words "Home Service" in brackets, *e.g.*, if the 7th Bn. Nottinghamshire and Derbyshire Regiment volunteers for Imperial Service, its home service unit will be styled "The 7th (Home Service) Bn. Nottinghamshire and Derbyshire Regiment." This rule will apply to all arms and services of the Territorial Force.

8. The following minimum number of officers, &c., will be temporarily detached from the Imperial Service unit for duty with the members of the corresponding Home Service unit at the dépôt :—

—	Officers.	N.C.Os., T.F.	Permanent Staff In- structor.
Infantry battalion ...	2 (1 Captain, 1 Subaltern)...	4	1
Yeomanry regiment ...		2	1
R.F.A. brigade ...			
A.S.C., Divl. T. & S. Col.			
R.E., Divisional ...		2	—
R.H.A. battery ...			
R.G.A. Heavy battery ...			
A.S.C., Mtd. Bde., T. & S. Col.			
R.A.M.C., Field Ambulance.	1		

9. All units and formations will continue to train as at present at their war stations.

The Home Service unit will be organized and trained at the same war station as the corresponding Imperial Service unit.

Recruits will be trained as follows :—

A.O. 399

(a) At their dépôt until they have been armed and clothed, and until the dépôt becomes too congested.

1914  
*continued.*

(b) When the dépôts become too congested the most advanced recruits will be drafted to their war stations. Untrained men will not be posted to any of the eight original companies, but should be placed in recruit companies, which companies will contain a proportion of duty-men to assist in the training of the recruits. Recruit companies will be stationed with their battalions. As recruits become trained they will be drafted to companies, to fill vacancies in establishment.

10. All nominations for commissions in the lowest rank either to Imperial Service or to Home Service units will be made in accordance with paragraphs 51, 51A, 51B, 51C and 51D, Territorial Force Regulations.

Recommendations for promotion, transfer, &c., will be forwarded by officers commanding units through the brigade and divisional, mounted brigade or fortress commanders to General Officers Commanding-in-Chief of Commands for submission to the War Office.

In the case of the promotion or appointment of an officer to command a unit of the Central Force, the recommendation will be forwarded through the General Officer Commanding-in-Chief, Central Force, to the General Officer Commanding-in-Chief of the Command concerned for submission to the War Office.

Selections for the command of Home Service units and appointments of officers, other than in the lowest rank, will be carried out in accordance with paragraph 52 (as amended by Army Order 240 of 1912) and paragraph 53, Territorial Force Regulations.

11. As the expansion of the Territorial Force into Imperial Service and Home Service units may in some cases involve the supersession of officers, promotions carried out in such circumstances will be temporary.

When a Gazette notice forwarded by a General Officer Commanding-in-Chief involves such a supersession the word "(temporary)" should be inserted in the notice, e.g., "2nd Lieutenant E. H. Smith to be Lieutenant (temporary)."

12. Instructions as to the arrangements for the accommodation, clothing, &c., of members of Home Service units are being drawn up and will shortly be issued to all concerned.

<b>1914.</b>	<b>1. Change from monthly to weekly payments.—</b> (a.) It has been decided that, from 12th October, 1914, allowances to families shall be drawn weekly. Instructions have already been given by circular letter dated 18th September, 1914, No. 46/Gen. No./6173, for an issue from 1st to 11th October. From 12th October issues will be made every quarter of 13 weeks by means of a new form of postal draft.	<u>Gen. No</u> 6173

(a.) It has been decided that, from 12th October, 1914, allowances to families shall be drawn weekly. Instructions have already been given by circular letter dated 18th September, 1914, No. 46/Gen. No./6173, for an issue from 1st to 11th October. From 12th October issues will be made every quarter of 13 weeks by means of a new form of postal draft.

(b.) The drafts will be in cheque book form, each book containing 13 drafts. The books, when filled up with the necessary particulars, will be issued by paymasters or Territorial Force Associations, quarterly in advance, *direct to postmasters*. A separate notification of the numbers of books forwarded will be sent to postmasters on Army Form O 1791 or 1791A, and acknowledgments obtained.

The first issues will be made to the postmasters at the post offices where the money orders for the period from 1st to 11th October were made payable.

(c) A payee may change the post office at which payment is made by giving notice to the postmaster. The postmaster will transfer the book of drafts to the new post office and notify the issuer of the change.

2. *Procedure of issue.*—The procedure of the quarterly issues will be as follows :—

A.O. 406  
1914

(a) The existing pay lists (Army Forms N 1536 and 1536A) will continue to be used for the first quarter, spare columns being headed as follows :—

*continued.*

- (i) Numbers of postal drafts.
- (ii) Period 12/10/14 to 9/1/15, £ s. d.
- (iii) Casual payments (three columns).
  - (a) Number of Army money orders.
  - (b) Period.
  - (c) Amount, £ s. d.

A specimen entry is given at the end of this Army Order.

(b) The front page of the book of drafts will be filled in from the particulars shown on Army Form N 1536 or 1536A, the weekly amount inserted on each of the weekly drafts, and the front page stamped at the appropriate place with the stamp of the issuing office. When the period for which allowances are admissible commences after the date of the first draft in the book, the earlier drafts will be cancelled, the amount of the first draft payable will cover the broken period to the first Monday, and the subsequent drafts will be for the full weekly amounts.

(c) The numbers of the drafts, *e.g.*, 190,841/13, and the total value of the drafts for the period, will be entered in the appropriate column of Army Form N 1536 or 1536A.

(d) The books of drafts will be despatched to *post-masters* in sufficient time to allow of payment being made when the post offices are opened for business on 12th October, 1914.

(e) *No advice lists will be necessary.*

(f) The Identity Certificates already issued will continue in use until all the rings have been stamped. The difference between the rates shown on the certificates and the amount of the postal drafts will not delay payment, as instructions on the point are being issued to postmasters. A copy of the Instructions for Soldiers' Wives, &c., suitably amended, should be sent with the Identity Certificate to each new payee, until a new form of Identity Certificate containing the necessary instructions is issued.

3. *Casualties.*—Instructions regarding casualties will be issued later.

4. *Paid postal drafts and Army money orders.*—The paid drafts and orders will be returned periodically to

## Army Orders.—October, 1914.

**A.O. 406** issuing officers by the General Post Office, and issuing  
**1914** officers will satisfy themselves by a comparison of the  
*continued.* numbers with the numbers noted on the Army Form  
 N 1536 or 1536A, that the drafts and orders are in order  
 and were issued by them.

5. *Forms.*—A supply of the books of postal drafts has been ordered, and should reach all regimental paymasters and secretaries of Territorial Force County Associations about 1st October, 1914.

A supply of envelopes of suitable size, addressed "The Postmaster of.....," has also been ordered, and should reach the issuing offices about the same time.

Army Forms N 1536 and 1536A are being revised and the new issue will be available for the second quarters' payments. Supplies of these, and of the envelopes addressed to "The Postmaster of.....," should be indented for in the ordinary course. The supply of postal drafts for the second and subsequent quarterly periods should be indented for through the General Post Office in the same manner as Army money orders, but the indent should be addressed to the "Comptroller and Accountant-General, General Post Office, London," and the envelope marked "Postal Drafts." It is important that the General Post Office should know a month in advance the quantities that will be required in the ensuing quarter.

6. *Method of accounting.*—(a) From the 1st October next, all payment to wives and families, of separation allowance and allotments, will be accounted for as follows:—

(b) The total of the paid postal drafts and Army money orders returned by the General Post Office to regimental paymasters will be debited to Vote 7, Separation Allowance, and credited to the Postmaster General's Money Order Account.

(c) The total of the paid drafts and orders returned to County Associations will continue to be notified to the War Office, on the approved form referred to in paragraph 18 of the instructions relating to separation allowance issued with Army Order 293 of 1914.

The adjustment will be carried out at the War Office.

(d) As the amount charged to Vote 7, Separation Allowance, includes allotments of pay recovered from soldiers, the stoppages in pay lists (Army Form N 1505A and Army Form N 1451A) will be credited to Vote 7,

Separation Allowance, in a separate column, instead of as directed by Army Order 343 of 1914 (paragraph 2) and Army Order II. of 2nd September, 1914 (paragraph 50c). A.O. 406  
1914  
*continued.*

(e) In order to secure that the ledger account of a soldier serving abroad is debited with the correct amount of the allotment, the paymaster or County Association issuing it will send Army Form O 1795 to the Regimental or Command Paymaster paying the man as soon as the first payment is made. This rate of recovery will remain in force without any further Army Form O 1795 being sent until a change is made in the rate. Paragraph 10, Army Council instructions, on page 232 of Pay Warrant, should be amended accordingly.

(f)—(i) In the case of men whose accounts are kept in the active service ledger account, Army Form N 1507, the following adjustments will be made by paymasters at the end of each quarter. Commencing with the quarter ending 31st December, 1914, the net rate of pay will continue to be shown, but a column in the pay list should be used to show the amount of pay withheld during the quarter on account of allotments of pay. The total amount of the allotments will be debited to Vote 1, Pay, and credited to Vote 7, Separation Allowance, and will be supported in the account by a certificate showing the total amount for the unit for the quarter.

(ii) In the case of men who have died, any allotment issued after the date of death will be similarly debited to the pay vote concerned and credited to Vote 7, Separation Allowance.

(iii) Any amount issued on account of a prisoner of war beyond the date to which pay is admissible (Article 985 of the Pay Warrant) will be similarly dealt with.

(g) In the case of soldiers of the Territorial Force for whom similar information is required, the date up to which the allotments have been issued will be ascertained by the regimental paymaster from the Territorial Force Association concerned.

(h) In the case of soldiers on the Indian Establishment whose pay is borne by Indian funds, and for whom separation allowance is already being paid by paymasters, the separation allowance only will be paid by postal drafts. Allotments will continue to be dealt with as directed in paragraph 11 of the Army Council's instructions to Article 986 of the Pay Warrant.
